GE Capital Aviation Services (GECAS) is one of the world’s premier providers of aviation financial services. We offer a wide range of aircraft types and financing options, including operating leases and secured debt financing. We also provide solutions for spare engine leasing, spare parts financing/management, and airport and airline consulting services. An industry-leading suite of products and services to help you build your business.

And GECAS can be found in every corner of the globe, staffed with the industry’s most experienced team of aviation marketing, legal, risk and technical personnel. We work with more than 230 airline customers—from flagship airlines to startups, and from regional airlines to low-cost carriers.

At GECAS, we’re not just bankers, we’re builders.
GECAI maintains one of the largest portfolios of aircraft in the world, from manufacturers including Airbus, Boeing, Embraer, Bombardier and ATR. We also have a substantial order book of new commercial jets and in the end of the decade.

Operating Leases
Each of our operating lease transactions has individually tailored terms. Leasing from us usually involves no residual risk or liability, which lowers our overall working capital. This follows our fleet flexibility to introduce new routes or aircraft types or to quickly increase capacity.

Purchase Leasebacks
We deliver value to you through leaseback arrangements, which allow you to use the proceeds from your sale of other business assets, alleviate asset residual risk, and improve operational flexibility.

Secured Loans
Secured by both new and used aircraft, senior and junior loans to airlines and investors are provided through our PK Airfinance unit. GECAS also offers pre-delivery payment financing.

Aircraft Servicing
With our wide range of aircraft types, we can help you expand your fleet, transition from older models to newer aircraft types, or provide interim capacity.

Aircraft LEASING, FINANCING AND SERVICING

Narrowbody and Widebody Aircraft
With our wide range of aircraft types, we can help you expand your fleet, transition from older models to newer aircraft types, or provide interim capacity.

Cargo Aircraft
We can help you modernize and expand your cargo fleet, too. Whether you have just one aircraft or an entire fleet, our wide range of financing and leasing options can help you build your business.

Regional and Turboprop Aircraft
GECAS is a leader in the leasing and financing of regional and turboprop aircraft with more than 300 Bombardier, Embraer and ATR aircraft in our portfolio.

With our wide range of aircraft types, we can help you expand your fleet, transition from older models to newer aircraft types, or provide interim capacity. GECAS has one of the world’s largest commercial aircraft fleets, and we back our aircraft with a global team of technical experts and industry specialists who will provide you with the fleet solution that meets your specific needs.

More products. More services. More solutions. GECAS ... built to take your business to new heights.

GECAS Asset Management Services is one of the largest global distributors of recertified aviation components. Stored in our climate-controlled warehouses, our inventory includes re-certified rotables and repairables for today's most popular Airbus, Boeing and Bombardier models, as well as earlier vintage aircraft.

Supply Chain Management
Our customized solutions can help you reduce long-term operating costs while increasing efficiency. We have a large inventory ready to ship from warehouses in Europe, North America and Asia.

Unlock the Value of Your Parts
With GECAS's global reach and expertise, we can optimize your inventory and turn those assets into a lucrative revenue stream.

Acquisitions
GECAS also buys and sells aircraft part inventories and aircraft for teardown. We are constantly adding aircraft to our inventory including A320s, A330s, 737NGs and 777s.

Repair Management
Our repair management services help ensure quality spare parts, efficient turn times and cost controls. We use only OEM and customer-approved repair facilities for overhaul, repair and modification of our components.

GECAS Engine Leasing buys, leases and finances all engine types, in addition to GE and CFM. Our engine pool also includes Rolls-Royce, Pratt & Whitney, IAE and Engine Alliance products. Our leases—offered from one day to 20 years—are designed with flexibility in mind. We also provide pooling and guaranteed support products worldwide.

Operating Leases
We can meet your engine requirements through operating leases that range from six to 10 years. These lessors typically seek a lower degree of operational flexibility. We also provide leasing for other equipment.

Short-Term Leases
Short-term leases provide the least degree of operational flexibility. We also provide leasing for other equipment.

Purchased Leases
You can also acquire engines on a variable rate basis or enter into programs related to improving the performance and increasing operational reliability. We offer 100 percent financing without pre-delivery payments.

Secured Loans
GECAS Engine Leasing provides loans secured by both spare engines and engine parts to airlines, OEMs, MROs and other aviation companies.

Engine Exchange
If you have an immediate need for an engine or are facing an unusually expensive shop visit, an engine exchange may be the answer. Our programs will exchange one of our serviceable engines for your unserviceable engine. We will then procure the necessary parts to repair your engine and we will provide the necessary parts to repair your engine and we will provide the parts for your engine for a fixed cost.

Engine Servicing
You can also acquire engines from GECAS Engine Leasing, which offers a complete range of services to meet your needs. We offer our customers the convenience of our turnkey services, which include testing, overhauling, certification and delivery.

Our Fleetwise Parts Inventory Includes
- Engine accessories
- Cooling system
- Auxiliary power units
- Gear components
- Major structural items including landing gear

Our Programs Include
- Fleetwise Parts Inventory
- Next generation
- Profit sharing
- More parts and services

Our Repair Management Services Help Ensure Quality Spare Parts, Efficient Turn Times and Cost Controls. We Use Only OEM and Customer-Approved Repair Facilities for Overhaul, Repair and Modification of Our Components.
CONSULTING SERVICES

AviaSolutions

As an independent consulting division, AviaSolutions provides specialized advisory services to create value for airports, airlines, governments and financial investors. As the “advisor of choice” in the field of airport acquisitions and transactions, AviaSolutions offers a range of services to airlines, airports and investors world-wide.

Client Services Include:

• Ranging from global hub-level transactions, Chicago O’Hare to the Middle East’s regional airports, AviaSolutions offers a full range of services to all stages of the transaction cycle.

• Providing a broad package of services, AviaSolutions has worked on nearly every major airport transaction since 2004, representing buyers, vendors and debt providers.

AviaSolutions’ four pillars of service:

• Gap Analysis and Consult on the development and implementation of national aviation policy—encompassing specific directives in the U.K., Europe and North America.
• Forward-Thinking Challenges throughout an airline’s entire value chain, AviaSolutions brings qualified technical and strategic support to every point in the value chain, from traffic analysis, network development, fleet selection and acquisition analysis.

AviaSolutions’ role in the value chain is to help clients make decisions that provide maximum return on investment.

AviaSolutions has provided services to:

• Adjusting capacities to match demand
• Implementing pricing and cost control strategies
• Assessing market demand
• Determining long and short-term capital structure
• Maximizing capital efficiency
• Developing financial and operational strategies
• Improving performance
• Assessing and simplifying processes
• Transferring technology

Other Services

As a client of AviaSolutions, you have access to banks and investors, and our experience in structured finance, capital markets products and serviced investment platforms (publicly listed or private) can be tapped to assist with various financing and investment structures for the benefit of both airlines and investors.

AviaSolutions

Aircraft and Engine Portfolio

GECAS works closely with major commercial airline manufacturers and has one of the world’s largest fleets of aircraft in its portfolio and on order available for lease. In addition, GECAS is the engine leasing leader, leasing and financing all major commercial engine types.
